Who we are?

IT Event Management (IT-EM) was founded in 2002 by a group of young, energetic university graduates who wanted to change the face of events management in South Africa.

Consequently, they set about developing a range of state-of-the-art IT solutions aimed at the events and exhibitions market. By designing unique, customised, easy-to-use systems and programmes, IT-EM provides cost-effective IT solutions for any event, exhibition, conference, gala dinner or meeting.

Because all services are provided on site, IT-EM ensures that organisers of these events can sit back and relax while every technological component – from registration and delegate tracking to internet connectivity and plasma displays – is taken care of professionally.
